

Origami Butterflies

Use the two sheets of paper to create two paper butterflies. Use the images to help you. A sample butterfly is included!

Step 1: Fold the sheet in half both directions to create four small squares.

Step 2: Now fold those squares in half to create triangles.

Step 3: Push the right and left folds inwards to create a larger triangle.

Step 4: Fold the two corners of the triangle upwards to create two small triangles.

Step 5: Flip the paper over and fold the bottom point upwards.

Step 6: Fold the right and left corners upwards, then flip the design over to reveal a butterfly!

We would love to hear about and see your projects! Snap a picture and post on Facebook tagging @khartscenter or text a photo and/or comments to 513.382.4913
